❖ Disposable trays ❖ Optimised solutions ❖ Minimum handling ❖

### Results:

**Sharp, well-stained protein bands with crystal-clear background!**

### Experience the difference !

#### ✓ Safety

No more dangerous vapours, minimal contact with solvents and gels.

#### ✓ Convenience

Just put your stained gels into **DeStain™** or **DeStain-XPRESS™** and place on a shaking platform. Come back for perfect de-stained gels.

#### ✓ Time

**DeStain-XPRESS™** provides fast and clear de-staining of gels in 1-2 hrs, freeing you for other work. If you run PAGE at the end of your working day do not worry, **DeStain™** will take care of it overnight and you will have the perfect result next morning.

#### ✓ Simplicity

There is nothing easier to use than these simple, optimised devices.

#### ✓ Economy

Affordable prices even for academic institutions!

#### ✓ and finally...

try out our **Peace of mind (2 in 1)™**

**The first device which both stains and de-stains electrophoresis gels in one step !**

**Peace of mind (2 in 1)™** does it all while you sleep. No extra work, no more worries.

Absolute peace of mind!
